ICE GORGE GROWING.

Serious State of Affairs Existing at Chippewa Falls.

THE CITY IS ALMOST INUNDATED.

When the Break Occurs the Entire Place Is Likely to Be Swept Away-The People Almost Panic-Stricken-At Least Three Thousand Head of Horses, Cows and Hogs Blave Met Death.

Chippewa Falls, Wis., Dec. 2.—The situation in Chippewa Falls is growing more serious every minute. The mammoth ice gorge which formed six miles down the river has backed into the city and the immense volume of water coming from above is spreading to each side, inundating large portions of the town.

tion is the knowledge of the impending danger and of the fact that they are utterly helpless to stay or avert it. Those whose houses have been flooded have removed their household goods and belongings to higher ground and are huddled together in the schoolhouses and other vacant buildings out of the path of the torrent that is sweeping down several of the main streets.

with anchor ice to a depth varying from 10 to 30 feet. The most stubborn resistance offered by the obstruction is in that portion of the river between the wagon bridge and the Central railroad bridge, about half a mile in length. Yesterday Mayor Lindley ordered an explosion of 500 pounds of dynamite, but after 300 pounds had been exploded the experiment was abandoned as a failure. Railroad officials who viewed the gorge stated that there is not sufficient dynamite obtainable to blast a channel for the river through the frozen mass of snow, logs and ice.

All hope of breaking the gorge and thus allowing the pent-up waters to gradually subside is now abandoned and all efforts are directed toward removing household goods and merchandise out of the reach of the flood. Every team in the city has been engaged in this work. Every resident and business firm of River street has moved out. The reach the courthouse, eight blocks from they have been driven away.

The postoffice is under three feet of water and Postmaster McCalm has moved the office seven blocks from its old location. Ten stores on the south side of Spring street are inundated. The Brothers, E. Posnancky, Wrienberg converted to the Mormon belief. Brothers, Goddard & Wilson, the Good Luck Drug company and the Mitchell restaurant are under water and 20 other firms have vacated their places of business. The offices of The Herald and The Independent newspapers are flooded and the papers will be issued from other buildings.

A report from Little Falls has been brought in that another gorge was forming 30 miles above here, and this has being frightfully mangled. greatly added to the alarm, as, in case it should break, nothing could save the city from being swept away.

All the farming country five miles south, near the town of Wheaton, is under water, and the loss to farmers is enormous. Many farmers barely escaped with their lives, and in some places houses and barns are carried farmer.

Reports of a very serious nature come from down the river. The country everywhere is flooded. The gorge continues to grow in extent. It is now over five miles long and in many places 30 to 50 feet high. It completely dams the river, and this is what is causing the the family, sat in the room while the rapid rise of the river here. It is not believed that anything serious can happen under the present conditions for at least a day or two, and it s believed that every one has been afficiently warned and is in readiness o fly the moment the crash comes.

Reports from various portions of Chipwa runs indicate a deplorable condin of affairs. At the Flambeau farm, miles above this city, another ice arge has formed. The river has over-

country 20 miles on either side. Domestio animals have perished by the seore. Farms and farm houses are flooded, and the losses will reach into the hundreds of thousands.

These reports are meager and uncorroborated, but it is safe to estimate that at least 3,000 horses, cows and hogs have met death in the flood.

PROBABLY FORMING A CABINET.

Mr. Ilanna Goes to Washington This Week to Prepare For the Inauguration-Hessia Little's Marderer Brought Into Court. Death at a Railroad Crossing-Mine on Fire-Other Ohio State News.

CLEVELAND, Dec. 2.-Hon. M. A Hanna and his wife went to Canton yesterday morning and returned yesterday evening. The day was quietly spent by Major McKinley and Mr. Hanna in conference, the last they will have before Mr. Hanna goes to take up his work in Washington preparatory to the inauguration. Mr. Hanna will

probably go to Washington on Friday.

The approaching departure of Chairman Hanna for Washington has renewed the gossip concerning the cabinet appointments of President-elect McKinley. It is confidently believed that when he goes to Washington he will bear with him a message from McKin-ley, offering the position of secretary of state to Senator Sherman. With respect to the possibility of Senator Sherman accepting the place, Colonel Allan T. Brinsmade, who is a warm friend of Mr. Sherman, said that the senator was willing to bow to the will of his constituents. If they desire him to remain in the senate he would do so, but if they willed otherwise, he would acquiesce without a murmur.

Yesterday's gossip connected the name of a California man with a cabinet position. Judge Waymier of San Francisco, who was a member of the advisory committee during the recent campaign, is named by a close friend of the president-elect as the one likely to get such an appointment. He is slated either for secretary of the interior or secretary of agriculture.

CABINET CONFERENCE.

The President's Message and Cuban Affairs Were Discussed.

WASHINGTON, Dec. 2.—Owing to the fact that there was a large and full attendance of the cabinet at the meeting yesterday at the White House, there were rumors that the president and his official advisors were considering the situation in Cuba.

Although the meeting was a lengthy one, the Cuban subject was not the sole subject of the meeting, because the president took occasion to read to the cabinet the final draft of his annual message, which will be sent to congress next week. The president is anxious to ment. get the opinion of the cabinet on that portion relating to Cuba as well as the financial part, which he deals with quite extensively. The cubinet was in session for a couple of hours, but there was no go to Mantua, in that province, to inespecial question discussed except the message.

HAVANA. Dec. 2.—Captain General Weyler, after leaving San Cristobal on Saturday, reviewed the troops in that vicinity, and then moved with his column toward the burned town of Santa Cruz de Los Pinos, camped the same night at Tuco Taco and on Sunday went by the highway toward Palacios and San Diego, passing the farms of Puertos, Gordoros and Ciegos. He arrived at the old picturesque town of Palicos, where he camped on Monday, without firing a shot the whole way from San Cristobal. At Palacios the captain general joined forces with the columns of General Obregon and Colonel Alsino, the latter's troops being detailed to form the advance guard of the army, Colonel Segnera being given the command of the rear guard.

General Figuereas, hearing that the insurgent bands of Degado, Verjel and Cartillo were encamped at the Navia farm, neur San Jose Der Los Lajas, left that town at sunrise Monday and engaged the enemy at 6 o'clock in the morning. The insurgents were divided into two large parties and promptly opened fire on the Spanish advance gnard. Soon afterward two squadron of the Pizzarro regiment charged the enemy and the Navas battalion attacked the insurgents' left flank, eapturing the first positions. After this advantage the insurgents were successively dislodged from the other positions and were eventually dislanded and fled to the Sierra Blajano, Munagnaco and Vijia. NORTHERN APPLES.

They Are Finding a Ready Market in This City-Four Cur-loads Already Sold by Mr. R. B. Lovel.

The apple crop in this section was practically a failure this season, but in these days of railroads and rapid transit fruit grown in distant parts of the country are brought to our doors at prices within the reach of most any one.

Mr. R. B. Lovel, Maysville's leading grocer, has been handling Northern apples this fall and he has found a ready sale for them. He orders them in carload lots, and has so far sold about 800 barrels. They come nicely packed and 200 barrels to the car.

These apples are as fine as any ever brought to Maysville,-finer and better than can be grown hereabouts; they come from a section that is unsurpassed

The Baldwin, Russet, Northern Spy, Seek-No-Further, Gilliflower, Ben Davis and Greening are the principal varieties handled by Mr. Lovel.

They retail at \$1.50 per barrel, and he disposed of a car-load from Friday evening to Monday morning. Tuesday he was kept busy disposing of a fresh carload, the fourth so far received.

In addition to handling these Northern apples, Mr. Lovel disposed of a large quantity earlier in the season, received from Cincinnati.

THE LAUGHLIN CASE.

Opinion of the Court of Appeais, by Judge Payuter, Affirming the Death Sentence.

The Court of Appeals, in affirming the Laughlin case taken up from Bracken County, says:

'First-White affidavits showing the defendant could not have a fair trial in the county would have been considered on a motion for change of venue the failure to grant a continuauce upon such affidavits was not an error.

Second-In forming a jury it was not improper, after exhausting the panel, to summon jurors from bystanders, instead of having additional names drawn from the drum or wheel.

Third-Proof that the house of accused, where the killing with which he was charged occurred, was three or four miles west of Augusta, was sufficient to warrant the jury in reaching the conclusion that the killing occurred in Bracken

Fourth-Upon a trial for murder direct and positive evidence of the corpus delicti is not required. Presumptivo evidence is sufficient.

In this case aithough the hody supposed to be that of the person whom defendant had killed was so hurned that it could not be recognized, yet as the circumstances under which it was lound were such as to leave no reasonable doubt that it was the hody of the deceased the identifleation was suffleient.

Fifth-Extra-judiciai confessions alone are inadequate to establish the corpus deileti, yet slight corroboration may suffice.

Sixth-A confession, to be admissible as evidence, must be shown to be voluntary and not procured by the llattery of hope or the torture of fear. And in determining whether a confession was voluntary the court must be controlled by the facts of the particular case under consideration, the admission of such proof being in the discretion of the court. In this case a confession made by the accused to the County Attorney, who came to him at his request, was voluntary, and was, therefore, properly allowed to be proved.

Seventh-Aithough an original confession may have been obtained by improper means, yet subsequent confessions of the same or of like facts may be admitted if the court believes from the iength of time intervening or from proper warning of the consequences of confession or from other eircumstances that the delusion, hopes or fears under the influence of which the original confession was obtained, were entirely dispelled. But that rule has no application here, as the confession, the admission of which is complained of, was not a "subsequent" one, tho ciaim that there had been a prior confession not being sustained by the evidence

Eightii-Section 287 of the Criminal Code was intended to provide for an inquiry as to the sanity of the accused at the time of the investigation, and not as to his sanity at the time the offense was committed. And as it is only when the Judge has reasonable ground to bolieve tho accused to be insane that he is required to order the investigation, and the matter is in his discretion, his action in overruling a motion to have a reviewed on appeal, uo evideuee being heard on the motion.

The poem is a most serious and impressivo drama of man; the play is a love story and all that it aims to reflect is the characterizaand swathed with an atmosphere of weird spirituality. There is no love story more tender and affecting than that of the duped Faust and Marguerite, and the hostility and persecution of man. WAS A TRAVELING BANK. New York Police Capture a Much Wanted

Among his possessions were also found pictures of two very beautiful young women. The pictures had been taken in Ypsilanti, Mich.

NO DECISION YET.

The Jackson and Walling Case Will Soon Be Disposed Of.

FRANKFORT, Ky., Dec. 2.—The Jackson and Walling decisions will not be handed down by the circuit court of appeals until tomorrow. It is fully expected that they will be read then.

The reports sent out from here to the effect that the finding would be a reversal of the lower court and the remanding of the eases for new trials, are not generally eredited, inasmuch as coupled with these reports was the erroneous announcement that the decisions would be read yesterday.

The opinion prevails here that the judgment of death pronounced by the lower court will be sustained.

to which the expectant mother is exposed ere she presses to her heart her babe, and the dread with which she looks forward to the hour of approaching mother-hood. By the use of "Mother's

Friend" the body is made to yield pleasantly and without internal protest to the change it is undergoing. Headache and nauses are dispolled, the depressed and nervous feeling yields to one of pleasurable expectation. "I know one lady, the mother of three children, who suffered greatly in the birth of each, who obtained a bottle of "Mother's Friend" of me before her fourth confinement, and was relieved quickly. All agree that their labor was shorter and less painful." JOHN G. POLHILL, Macon, Ga.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual discase, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrap of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its heneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
